## Daily COVID-19 Case Counts\* for DuPage County

\*Data are provisional as of 12:00 p.m. 3/23/2020 and subject to change

**There are no additional cases at the long-term care facility (LTCF) in Willowbrook.**

Coronavirus Disease 2019 (COVID-19) Case Counts* in DuPage County, 2020	
<b>Total cases in DuPage County residents</b>	<b>Total long-term care facility outbreak-associated cases</b>
<b>95</b> (40 outbreak-associated** and 55 non-outbreak associated cases)	<b>46</b> ( <b>33 residents and 13 staff</b> ) cases)

\*Data are provisional as of 12:00 p.m. 3/23/2020 and subject to change.

\*\*Outbreak-associated cases are linked to a congregate setting or large gathering.

In DuPage County, there are now 16 additional confirmed cases of coronavirus disease 2019 (COVID-19) since yesterday. Since cases are identified by the county of residence, not all 46 of the cases at the LTCF are counted in the DuPage County case count. In DuPage County, there are now 95 confirmed cases of COVID-19, including 39 from the LTCF.

The DuPage County Health Department (DCHD) continues to discourage testing for individuals who are mildly or not sick at all. If you are sick, please stay home except to get medical care.

DCHD reminds you that nursing homes, assisted living facilities and other long-term care facilities have the most vulnerable at-risk populations due to their age and underlying medical conditions.

Across Illinois, the age of cases now ranges from younger than one to 99 years. The number of cases in DuPage County as well as the most up-to-date information can be found on the DCHD website, [www.dupagehealth.org/covid19](http://www.dupagehealth.org/covid19).

The number of COVID-19 cases being reported is rising quickly, partly because of the increase in testing by commercial and hospital laboratories. Because testing is becoming more available in these labs, IDPH will prioritize testing for our highest risk populations, such as hospitalized patients with severe acute lower respiratory illness and those who live and work in nursing homes and other congregate facilities.
