Since yesterday, there are 67 new cases of COVID-19 in DuPage County including one death of a person with COVID-19 infection reported:

- 1 male 90s

DuPage County Health Department offers our condolences to the family, friends and caregivers of this individual. We remain committed to address the unfortunate loss of life related to COVID-19. Our efforts continue with healthcare and community partners to reduce the spread of COVID-19 in DuPage County.

Since June 23, the 7-day rolling average of new COVID-19 cases reported daily in DuPage County has risen from a low of 34.3 cases per day to 48.6 cases per day (an increase of 42% in less than 10 days).

If you choose to be out this weekend, remember to follow the 3 W's: Wear a cloth face covering; Watch your distance by staying 6 feet apart; and, Wash your hands! The best way to prevent illness is to avoid being exposed to this virus.

Finally, as other parts of the country see increases in new cases, DCHD reminds you that if you are traveling to areas with higher levels of COVID-19 you should monitor your health daily. People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear 2-14 days after exposure to the virus.

People with these symptoms may have COVID-19 (fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, or diarrhea). If you develop any of these symptoms, contact your healthcare provider and stay at home except for medical care.

-More-

The DuPage County Health Department provides further information on our data dashboard for COVID-19-related hospitalizations, deaths, lab positivity and outbreak-associated counts by municipality. This additional information replaces the information that was previously provided daily in this format.

Information is also available for COVID-19 cases and deaths among DuPage County residents by race, ethnicity, severity, long-term care facility outcomes and underlying medical conditions. Visit the DuPage County COVID-19 Dashboard at www.dupagehealth.org/covid19data.

Individual long-term care facility outbreak updates are provided on the Illinois Department of Public Health website.
