Media Alert: Weekly COVID-19 Case Counts* for DuPage County

COVID-19 Case Counts and Dashboard Updates Move to Once a Week on Fridays

Coronavirus Disease 2019 (COVID-19) Case Counts* in DuPage County, 2020-2021
Total cases in DuPage County residents
92,755, including 1,393 deaths

*Probable cases have been added to confirmed cases to reflect total COVID-19 cases, effective 3/14/2021. Data are provisional as of 8:00 am 7/9/2021 and subject to change.

NOTE: Effective 7/9/2021, DuPage County Health Department will transition from daily to weekly issuing of COVID-19 case count news releases and DuPage County COVID-19 Dashboard updates, which will occur on Fridays. July 9th will mark two incubation periods of COVID-19, or 28 days, since Illinois entered Phase 5. Effective 3/14/2021, DuPage County Health Department (DCHD) incorporated COVID-19 probable cases and deaths into the COVID-19 data dashboard counts and graphs; confirmed and probable cases account for total case and death counts. COVID-19 probable cases include those cases that meet clinical criteria AND epidemiologic linkage with no confirmatory laboratory testing performed for SARS-CoV-2, or meet presumptive laboratory evidence, or meet vital records criteria with no confirmatory laboratory evidence for SARS-CoV-2.

The DuPage County Health Department provides further information on the data dashboard for COVID-19-related cases by age group, hospitalizations, deaths, percent positivity, outbreak-associated counts by municipality, and community transmission level.

Information is also available for COVID-19 cases and deaths among DuPage County residents by race, ethnicity, severity, vaccination status, long-term care facility outcomes, underlying medical conditions, doubling time, recovery rate, and outbreaks by setting. Visit the DuPage County COVID-19 Dashboard at www.dupagehealth.org/covid19data.

Individual long-term care facility outbreak updates are provided on the Illinois Department of Public Health website.
