

COVID-19 QUARANTINE and TESTING RECOMMENDATIONS*

For Persons Living, Learning, or Working in DuPage County

**STAY SAFE
DUPAGE**

IDEAL: 14-Day Quarantine - Not Fully Vaccinated

Test **immediately** after being identified as a close contact;
if negative, **test again in 5-7 days** after last exposure or **immediately if symptoms develop** during quarantine.

MINIMUM: 10-Day Quarantine - Not Fully Vaccinated

Test **immediately** after being identified as a close contact;
if negative, **test again in 5-7 days** after last exposure or
immediately if symptoms develop during quarantine.

Return on day 11. For days 11-14:
- Continue daily symptom monitoring.
- Continue masking in public indoor settings.
- Continue physical distancing.

NO QUARANTINE: Fully Vaccinated & No Symptoms

Test **5-7 days** after exposure to someone with suspected or confirmed COVID-19, or
immediately if symptoms develop.

DAY 0

DAY 5

DAY 10

DAY 14

All close contacts (regardless of vaccination status) should continue to monitor for symptoms through day 14.

If symptoms develop, get tested and contact your healthcare provider. If an individual tests positive at any point, they should isolate for 10 days except for medical care.

NOTE: People who have tested positive for current COVID-19 infection within the past 3 months and recovered, as long as they monitor symptoms daily for 14 days and **do not develop new symptoms, do not need to get tested and do NOT need to quarantine.**
